And What Have You

By BOB CRAIG

The Pipers will get a second chance to get at least a share of the District 5-AA title when they host the Stamford Bulldogs in a game that could throw the district into a two or three way tie — depending on the outcome of the Haskell-Colorado City game — or could give the Bulldogs the title outright.

But this game is more than just to decide the district race, because it pits two long time rivals and has always taken on a game of the year status as far as the two schools are concerned. The only difference this year is that there is more riding on the outcome.

If past records play any part in the outcome of this game Friday night then the Pipers should come out on top. Going back for the past six years, Hamlin has won the games played on odd years and Stamford has won on even years. Hamlin won in 1965, 1963, and 1961 and Stamford won in 1966, 1964, and 1962.

The Pipers have also won their last five ballgames at home, going back to the Haskell game last year.

But all of this will really have very little to do with the outcome of the game once the two take the field Friday night as both teams will be going with everything that they have.

It goes without saying that all of Hamlin will be wishing the Pipers the best of luck and will be backing them all of the way.

Don't forget that Saturday is election day. Because of the light turnout expected over the state on this election that will decide the fate of six amendments to our state constitution, it is important that everyone make an extra effort to vote. The will of the people should be expressed on each of these issues.

It will not take but a few minutes of your time Saturday to exercise your right to be heard by voting.

Saturday is also opening day for hunters as the Deer, Turkey and Quail seasons will open then over most of the state. This weekend will be a particularly hazardous period according to the Texas Safety Association who claim that Texas hunters this year outnumber American soldiers in Viet Nam almost two to one.

The Association has issued a special "Field Alert" calling for caution in the handling and shooting of firearms.

Approximately one million Texas sportsmen are expected to take to the woods this year in search of surplus game, they noted. This is an increase of several thousand hunters over last year and calls for the exercise of full self-control.

As a hunter moves cautiously through a field, all his senses are focused on locating and bagging his game, and unless he is in full control of himself, he is likely to blast away at the slightest movement or sound.

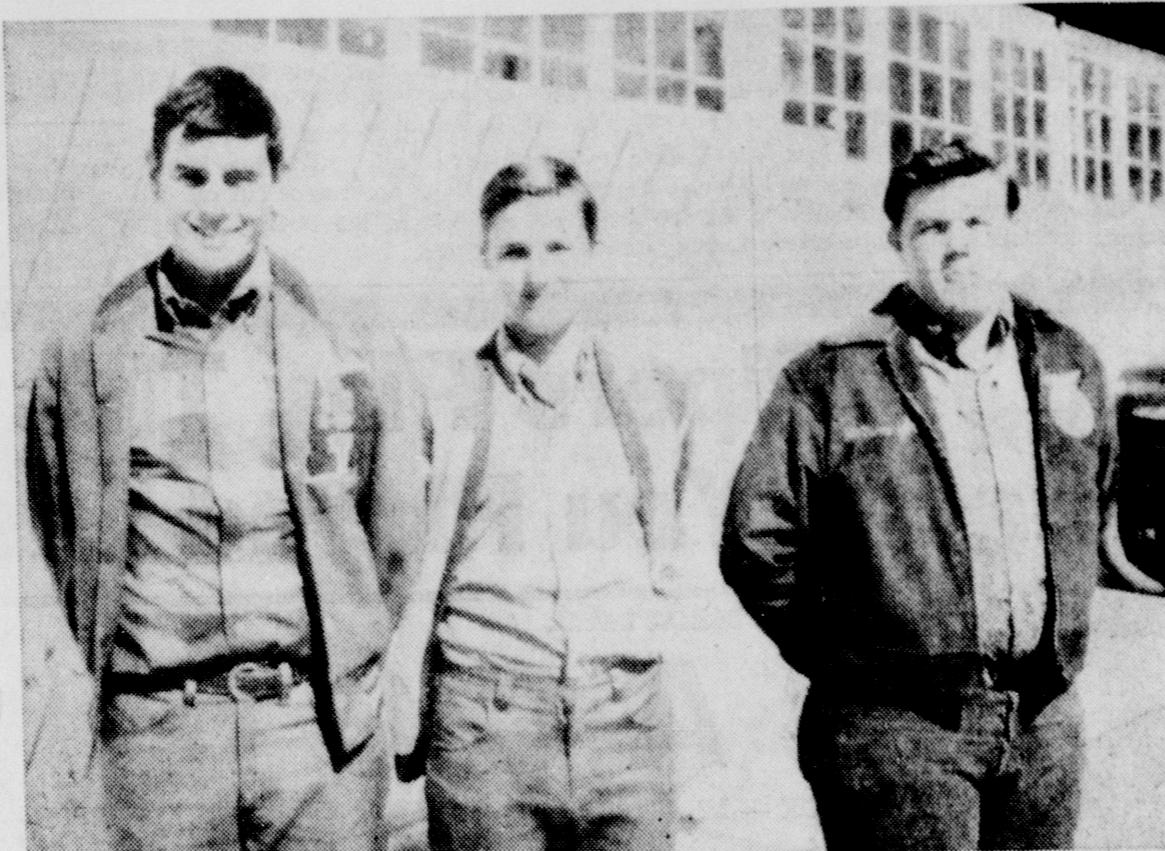

The safety organization noted that each year many hunters are killed when they are mistaken for a deer, a quail, or even a rabbit. "Blind" shooting at sounds in deep underbrush is the sign of a dangerous "greenhorn." A hunter should fire only when he has positively identified his target as legal game.

Hunters, except duck hunters in blinds, should wear bright red or yellow caps and jackets to make identification easier for other hunters.

Before shooting, a hunter should make sure that no one is in his zone of fire. This is particularly true when hunting in underbrush as bullets fired from high-powered rifles travel great distances.

In "bird" hunting, accidents occur as the hunter swings to shoot birds flushing to the right or left. All hunters in a group should stay abreast of each other. Those in the center should fire only at game that is straight ahead. Game to the side should be taken by the hunter on that flank.

So if you are a hunter please be careful. The only kind of a hunt that you can enjoy is a safe one.

FFA BOYS TO GET GILTS — Billy Hodnett, left, James Holt, center, and Milton Jordan, right, have been selected to receive registered gilts as part of their supervised farming programs in FFA. The boys are to raise the gilts, show

them next spring and develop a breeding program from them. A gilt will be returned next year which will be placed with another boy. Next year's recipients are Don Bockman, Steve Teichelman and Davis Weaver.

Smorgasbord Planned To Support Library Fund

Plans were started here Tuesday evening for a smorgasbord sponsored by the Hamlin Woman's Forum. Representatives from all clubs who make up the Forum were present to work out initial details for the fund raising project for the remodeling of the Harden Memorial Library.

Date for the smorgasbord was set for Sunday, Dec. 3, to be held at the Hamlin High School Cafeteria with a wide variety of foods to be featured. Each woman who brings food will have the opportunity to prepare her specialty and emphasis will be placed on having several unusual dishes.

Marching Green Receives II Rating At Odessa Saturday

Tommy Oliver
Janet Carson
Beth Craig

With heavy hearts but with a clear conscience the Marching Green Band returned from Odessa Saturday evening after having marched in the University Interscholastic League contests there. Though the band did their best on the field, they were just not able to add that extra sparkle that would have won them a First Division.

This year the U. I. L. contests were two weeks earlier than last year, a fact which cut the band's rehearsal time down considerably. The band was given a Second Division rating from the judges. No Class AA, A, or B bands received higher than a Second Division from the judges this year, although the judges awarded several First Divisions to the AAAA and AAA Class bands.

Posters proclaiming "Pipers Have Flower Power," "March Big Green," "We Want a One!" and "We're the Bestest,"

decorated the buses. Immediately following the band's performance, the band received a telegram from the pep squad urging them to get a one. hhs

Taking the NETD last week were some 50 Freshmen and Sophomores. The National Education Development Test is taken voluntarily by the students who pay a slight charge. Results of the tests will be returned to the students sometime in December.

Visiting the Hamlin Home-making Department last week was Miss Eva Thompson, the training teacher from the Abilene Christian College Home-making Department. During her stay here she conferred with Mr. Newberry, principal, and Mrs. Carter and Mrs. Simmons, homemaking teachers, concerning the possibility of having two student teachers from A. C. C. work in the home-making department here. If Hamlin is selected, the two will arrive here sometime in Jan.

Mrs. Dudley, in commanding the club for their cooperation with the Woman's Forum and the Harden Memorial Library, also noted that 85% of the libraries in the United States were organized through the efforts of women.

Mrs. Dudley was introduced by Mrs. Virgil Steele, program director.

Mrs. Bob Craig, president, presided during the business session.

Simpson gained five and lost
five before taking a screen
from Clifton for a 20 yard gain
to the Anson 25. Simpson
carried for gains of six, three,
one, four, and 11 to the one
yard line from where Clifton
scored on first down on a
keeper. Hastings missed on the
point after.

Quarterback Bob Clifton
was the top point maker as
he scored twice on one yard
plunges. Tailback Phillip
Simpson, the team's top point
producer, added eight points
as he scored once from the two
and made a two point conversion.
Guard Jimmy Hastings
rounded out the scoring with
Anson taking over on their 45 from where the
Pipers started moving again.

After the kickoff Anson
punted and Hamlin lost the
ball on a pass interception
with Anson taking over on
their 45 from where the
Pipers started moving again.

Simpson carried five times
to the Anson eight yard line
and on fourth down Hastings
kicked his 26 yard field goal

for two and the score. Hastings
added the point after.

The Piper defense held
the Tigers to 129 yards total
offense for the night with
most of this coming in the
second half as the Tigers netted
only 25 yards in the first
half and one first down. The
Pipers rolled up 185 yards in
the first half with 12 first
downs to give them a total of
258 yards for the night. In
holding the Tigers in check the
Pipers picked off four inter-
ceptions and one fumble.

The Tigers returned the
opening kickoff to their own
35 from where they gained
their only first down of the
half on a third down pass that
was good for 14 yards. From
this point on they ran into
trouble and punted from the
Hamlin 42.

Simpson returned the kick
23 yards to the Hamlin 33
and then with the help of Half-
back Sammy Ferguson moved
the ball downfield to the Tiger
eight in nine plays. On second
and six the Pipers fumbled
with Anson recovering on the
line.

Anson netted one yard in
three tries and got off a 52
yard punt to the Hamlin 37.

Clifton passed to Ferguson for
seven yards, Fullback Donnie
Smith was dropped for a five
yard loss on a draw, and Simpson
added four more, but End
John Holland lost them back
on an end around, and Simpson
picked up gains of nine
and one for a first down at the
23. Simpson carried again for
gains of two and eight for a
first at the 13. Fullback Gary
Simpson carried for one, Fer-
guson for two and Simpson
seven to the three. Simpson
hit into the line for one and
then hit over his left guard.

From Impala, world's most popular car

The silent ride of quality for '68

Now there are more reasons than ever why people should prefer Impala. Like all regular Chevrolets, it's even further ahead for '68!

A more hushed ride

Among other things, we refined and improved everything about the ride to make it surprisingly smooth and silent. Just try it and see. You'll find that our

engineers used electronic computers to pinpoint places where noises might develop, and installed a special network of rubber cushions to keep squeaks and rattles from disturbing your comfort.

We doubt that you've ever driven a car that moves so noiselessly.

The look you like best
People have always preferred Impala's looks. So for 1968 we made it even more beautiful. We gave the grille a more massive and masculine look. We gave the hood sweeping new lines and tucked the wipers neatly out of sight. We redesigned the tailights right into the rear bumper for a look you're sure to like.

We owe you the best
We figure we owe people more than other car makers do. Because it was people who put us in first place in the first place, and who keep us there year after year.

We appreciate it.

Neinda Philosopher Says Being President of The U.S. Not All It's Cracked Up to Be

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One takes a look at the national political scene this week. We don't know what he sees. Dear editor:

Although political writers don't seem to have much better luck predicting elections than sports writers predicting football games, neither group ever gives up and right now, according to all the news-

papers I've found out here in the past few weeks, the speculation is centering on who's going to run for President next year.

I won't go into all the names, politicians are like honorees at a wedding, if you leave one out of the paper you're in trouble, but one of the men being speculated on by the writers, Gov. Rockefeller of New York, when asked if he was considering running, said he didn't want to be President.

This seemed to shock the political writers, but not me. I know exactly how he feels.

We might as well face up to it, being President of the United States is not all it's cracked up to be. The salary isn't bad, but that basketball player, Wilt Chamberlain, makes over twice as much and has never been picketed.

Sure, the President gets to fly in an airplane, but millions

of Americans fly every week and nobody writes editorials about them.

It's one thing to be able to walk out of your office and go to your ranch when you want to, but you're not getting away from your job because if you're a President it follows you wherever you go.

The average man has enough to do handling his job, his health, his family, his in-laws and his neighbors, but a President has all those plus Con-

nations on earth, not to mention university professors, the

Gallup poll, and 200 million American tax payers.

In fact, when you stack it all up, you begin to have a strong feeling for the position of the man who doesn't want to be President, but this doesn't seem to make any difference and I doubt if the office will ever go vacant. Right now there are men all over the country clamoring for the job, but not being a political writer I won't pre-

dict who's going to win Friday's game between Hamlin and Stamford.

their base acreage. The 20% mandatory diversion continues in effect in 1968, but payments at a rate of 45% of the total support times the farmers projected yield will be paid for farmers electing to divert up to 50% of their base. The price support at \$1.05 per bushel on corn and \$1.61 per hundred on grain sorghum remains the same as in 1967 and the mandatory 20% diversion continues as during last year.

Of all Texas wells drilled in 1966, about 36.5% were dry.

Texas motorists are served by 15,000 service stations.

Farmers Union Head Praises Ag. Secretary Freeman

Texas Farmers Union state president Jay Naaman of Waco commended Agriculture Secretary Freeman for his announced restoration of the diversion payments to the feed grain program for 1968.

Naaman stated that he felt the Secretary's action was a "step in the right direction," although, it will not accomplish the objectives of Farmers Union which is to assure 100% of parity to feed grain producers.

The newly announced program is intended to encourage feed grain producers to divert at least 10 million acres more than in 1967 by giving them the option to divert up to 50% of
